- 3" **CAT. Hose 3** 490g
- 4" **CAT. Hose 4** 740g
- 5" **CAT. Hose 5** 950g
- 6" **CAT. Hose 6** 1kg

FLOOR SWEEP (Not Shown)

- Outlet 4" Base 22" x 7" **CAT. 14-015** 360g

Dust Collectors

General Description

Fanquip's range of Dust Collector units are assembled to conform to our high standard of quality. These compact, heavy-duty units are essential for maintaining a clean and safe environment in factories, construction sites, warehouses, workshops and other confined spaces where dust is generated. The high quality filter bags are reusable and rated at 10-15 microns ensuring that even fine dust particles are trapped for disposal. The centrifugal fan is shaft driven ensuring that the motor is out of the dust stream.

Technical Advice

Industrial Fan Equipment Pty Ltd (Fanquip) has technical consultants available to give advice on the correct choice of Dust Collector for your needs.

Accessories:

Accessories include a trolley assembly (2 x heavy duty wheels and push handle), Ultra Heavy Duty Filter Bags (5-10 microns), Ducting, Y Junctions, Reducers, Capture Hoods, Connectors etc.

Installation and Maintenance

The procedures as outlined in Fanquip installation, operation and maintenance instructions (separate leaflet), should be followed to ensure satisfactory performance and service life.

Warranty

Twelve months guarantee on mechanical and electrical componentry subject to satisfactory maintenance with assessment and rectification, if any, to take place after return by customer to Fanquip's workshop.
