VENTILATION SOLUTIONS

Air Curtains

Heavy Duty, Australian Made

+

description

Fanquip Air Curtains are designed to provide a high speed curtain of air in front of doorways and entrances. The new range of Fanquip Air Curtains has been designed to give increased performance and longer service life.

application

Primarily used in abattoirs, food processors and storage industry. Emits a strong curtain of air in front of entrances to block out dust, odours and insects entry. The Air Curtain is also used on walk-in refrigerators to stop cold air emission.

features

Added features of this superior air curtain are:

- Direct Drive
- IP56 rated
- AQIS standard
- Australian made
- Available in 900mm, 1200mm & 1500mm wide
- High velocity
- Low maintenance
- 240V or 415V
- Optional stainless steel construction

dimensions

Size (mm)	A (mm)	B (mm)	C (mm)
900	907	375	456
1200	1207	375	456
1500	1506	375	456

configurations

Performance data.

Model Number	Size (mm)	Motor Speed (rpm)	Motor Power (kW)	Voltage (V)	Construction
13-15091 or 3	900	1440	0.75	240/415	Galvanised or S/Steel
13-15121 or 3	1200	1440	1.50	240/415	Galvanised or S/Steel
13-15151 or 3	1500	1440	2.20	240/415	Galvanised or S/Steel

About Fanquip

complete ventilation solutions...

As Australia's leading fan company, Fanquip are well placed to advise, design and manufacture the complete range of fans and fan systems for industrial and manufacturing applications.

Our Specialty is complete turnkey solutions, from initial consultation through to installation and maintenance. The initial contact is followed closely by the design proposal which then continues through each step of the process to reach a solution which is perfectly tailored towards your individual requirements.
